- Shaft Demolition
- Concrete works and Road Works
- Rehabilitations

ENVIRONMENTAL POLICY

The policy attaches the greatest importance to the conservation of our natural environment, the wellbeing of the community and that of our employees.

We shall therefore not partake in any activities that will be detrimental to our natural environment. In the event our activities influence the environment negatively, we would do anything possible to rehabilitate the environment.

The co-operation of our employees shall ensure that this policy is implemented across the complete spectrum of our operations by:

- Smoking in designated areas only
- Disposing of waste in rubbish bins
- Falling in line with the client's waste management policy
- Preserving natural vegetation
- Preserving indigenous plants

In the event of exposure to hazardous conditions necessary precautions will be taken to ensure that the health of our employees and the community are not compromised under any circumstances i.e. noise, gas omissions, flammable substances and others.

QUALITY POLICY STATEMENT

The company shall ensure, through its management, company procedures and employees, that every effort is directed towards achieving and meeting our client's desired quality goals.

The company shall work in accordance with clients; Quality Systems, ensuring the specified quality requirements are achieved for all companies' services. Quality officers will be responsible for maintaining quality control procedures in their areas and ensuring line supervision commitment and awareness of quality requirements.

Accountability for possible quality failures will rest with the manager in

charge. The company will strive for the implementation of ISO 9001 quality standards. Our main objective is to supply products and materials that meet the client's requirement in all aspects. In order to assist personnel at all levels to attain this objective, specific production and control procedures are followed.

These procedures are incorporated into the quality management system, which ensures regular report back on audit to the relevant management levels. The quality management system will be maintained and developed in conjunction with other management functions to enhance the overall quality control.

OUR TEAM

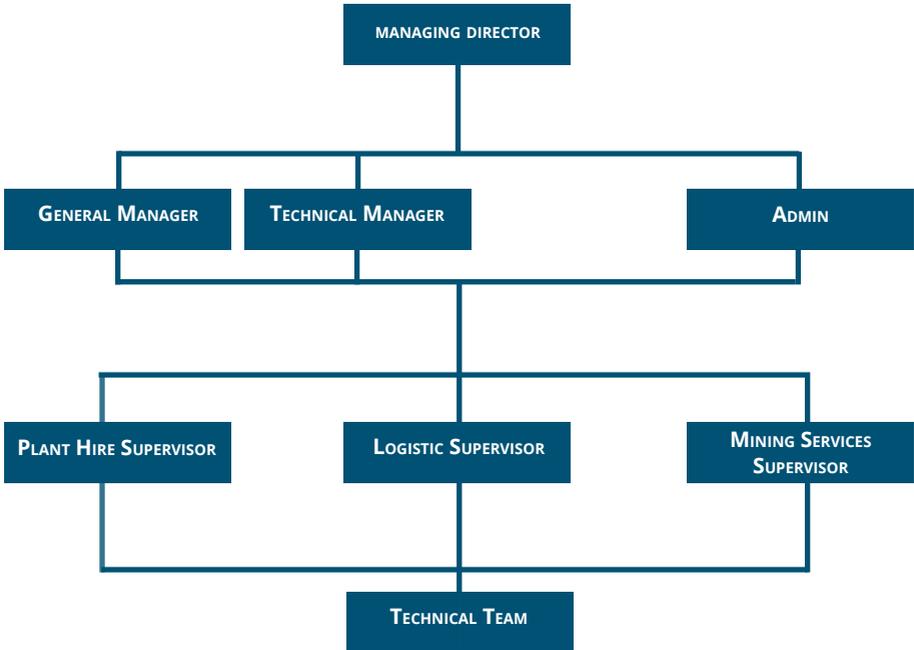

Mamonkwe Trading is a young, dynamic and adventurous company that was established by young professionals that saw an opportunity to establish a company that will empower young professionals whilst contributing to the economy. We encourage the idea and fundamental purpose of Black Empowerment in the new era of Entrepreneurship.

The main goal and objective of Mamonkwe Trading is empowerment and contribution to the economy of South

Africa and also to the Global Economy in the transportation/logistics, mining & Plant Hiring industries with a new dynamic way of doing business on a global scale.

We have over 10 years collective experience and skills in successful leadership and senior management positions, in both small and large businesses, and are therefore geared to tackle the transportation/logistics, mining & Plant Hiring industries head on.

COMPANY ORGANOGRAM

SAFETY & HEALTH POLICY

The company shall strive towards implementation of procedures, which will prevent injury or loss and assure the health and safety of our employees. The company and all of the management place loss incident prevention and the health of its employees as the most important aspect of its operations, and in this regard recognize and understand their responsibilities in terms of the O.H.S. Act.

The following broad guidelines are used to manage the risk which our employees may potentially encounter:

- The requirements of the Occupational Health and Safety Act are to be met as a minimum and preferably exceeded.
- A policy of “Zero tolerance” will be applied to all deviation from safety rules and safe work procedures.
- Ongoing health and safety training programmes are to be implemented involving all employees.
- Risky operations and working circumstances are to be made as safe as is reasonably practicable.
- Risk elimination where practical is preferred to risk management, including the use of PPE.
- The correct personal protective equipment will be issued to employees and the use thereof will be enforced.
- Each and every employee is responsible for general health and safety in the workplace and as such open and frank discussions regarding health and safety issues are routinely held.
- An effective occupation health and safety management program is run in excess of the legal requirements and those of our clients.

Mamonkwe Trading CC has a comprehensive safety management system that complies fully with the mining standards. We are committed to ensuring that all employees adhere to all rules and regulations stipulated in the guidelines for creating safe working environment and the safeguarding of human lives.

**Create with
the heart;
build with
the mind.**

SHE POLICY

Mamonkwe Trading CC is committed to providing a safe and healthy working environment for all our employees. We aim to prevent accidents and incidents

in the workplace by managing and identifying health and safety risks and hazards in the workplace. We will achieve this by following these principles:

ARRANGEMENTS:

- Prioritize the health and safety of all employees and or visitors who come into our working space
- Promote and encourage safety and responsibility among all employees and supervisors
- Have administrative meetings with employees to encourage health and safety in the workplace
- Assess all risks and hazards in the workplace and implement controls to reduce or eliminate them
- Get feedback from employees on how to improve safety and health in our working activities
- Provide appropriate tools and machinery, checked and assessed for any hazards
- Operators to be checked for operators' licences and all drivers to be checked for licences, to avoid accidents and reckless driving
- Provide training and induction for all employees, inform them of safety and health policies, company procedures and work ethics
- Inform workers of their responsibility for their safety and health and the safety and health of their fellow worker
- Evaluate controls, new tasks, new development and technologies and communicate it with every employee
